

FROM THE DESK OF:

TOM H. MILLER
State Representative
District 7
Cherokee, O'Brien and
Clay Counties

12/21/92

Dear Dolores:

In reaction to the mailing from Iowans for Medical Marijuana ... be careful.

The two people I have contacted up here sent me a copy of the Maine bill and said they would like to have a similar bill prepared for the Iowa Legislature. However, the Maine legislation allows medically-approved patients to grow their own Marijuana.

If that provision is included in the Iowa bill, I believe there will be an adverse reaction by many legislators and also law enforcement authorities.

Any unsupervised growing of marijuana could get out of hand; and I don't know just how such growing could be supervised completely without creating another agency.

Let me know how you're coming, and I'll help persuade some friendly legislators -- so long as growing of marijuana is not included.
